The Joint Secretary
Public (R.D.I)
Fort St. George

Sir,

Sub: NATIONAL EXTENSION SERVICE--South Kanara District--Pyndoor Block--Development of village Oil industry--Scheme for setting up and running of Demonstration Unit of Wardha Ghanies.

Ref: 1.From the Secretary Indian Central Oil Seeds Committee Hyderabad letter No.FG.Oil.(44)-50 dated 18.6.55.
2.From the Block Development Officer, Pyndoor Ref.P. 590-55 dated 19.7.55.

Pyndoor is one of the fourteen National Extension Service Blocks for setting up and running of Demonstration Unit of Wardha Ghanies. The Block Development Officer Pyndoor addressed the Secretary of the Indian Central Oil seeds committee to know whether there were trained organisers available to organise and work up the demonstration units and whether arrangements could be made for the aprointment of one trained organisor to Pyndoor Block. He also enquired as to what help the Committee would give for running the demonstration unit. In reply the Secretary has sent a model scheme for setting up and running a demonstration unit of Wardha Ghanies in Community Development blocks and has suggested that this scheme might be suitably modified according to the local conditions andproposals if any in this regard to start a centre in the Pyndoor National Extension Service Block. He has requested that the scheme may be forwarded to the Committee through the State Government for its consideration. The scheme sanctioned in G.O.Ms. No.2828 Public (RDF) Dept. dated 17.12.54 is a local variation for the scheme given in the letter of the Indian Central Oil Seed committee. No other modification is necessary. Five persons have already been selected for the first batch for training at the centres.

2. I enclose a copy of letter No.FG.Oil(44)50 dated 18.6.55 of the Secretary,Indian Central Oil Seeds Committee regarding the financial assistance that the Committee will give for setting up and running demonstration units of Wardha Ghanies for consideration of the Government for such action as deemed fit.

Yours faithfully,

Pub(RDPII)

For Collector.

13/12.12.55.

Sub: Scheme for setting up and running demonstration units of Wardha Ghanis in the Community Development Blocks.

Sir,

With reference to your letter No.590/[illegible]-A dated [illegible] on the subject mentioned above, I am directed to say that the Committee has been offering financial assistance to the extent of Rs.5000 per annum for setting up and running demonstration units of Wardha ghanis in the community Project and Development Block areas of various states.

A copy of the Committee's model scheme is enclosed for your guidance. The model scheme may suitably be modified according to the local conditions and proposal if any, in this regard to start a centre in the Bundoor C.D.P. Block, may kindly be forwarded through the State Govt. to this committee for its consideration.

2. A list giving the particulars of the candidates who were trained as organisers at the committee's training centre at Wardha is also enclosed. The services of any of these candidates, if available may kindly be utilised for that purpose.

Yours faithfully,
Sd/ xx xx
for Secretary

-True copy-

A model scheme for setting up and running a demonstration unit of Wardha Ghanis in community Development Blocks.

--

A unit of two Wardha Ghanis is considered to be most economic and could be looked after easily also by a single person where both the ghanis are working simultaneously. The oil produced at the Centre should be filtered by the hand-oil filter press designed at instance of the Indian central Oilseeds committee, before its disposal. This would improve the quality of the oil produced and demonstrate the usefulness of the filter press also.

2. The ghanis may on an average be demonstrated for six hours per day, crushing four charges, each.

3. The estimated expenditure for running one demonstration unit including the cost of ghanis and equipments is given below. No provision has been made for any supervisory staff, as the local staff of the Community Project centre should be able to manage the scheme. For working expenses towards the cost of oilseeds to be crushed, provision has been made for a fortnight only; this has been done to with the object that with this initial capital outlay for oilseeds, it would be possible to obtain further requirements of oilseeds from the sale of oil and cake produced during the fortnight, for continuing the demonstration throughout the year. The estimates on this account and also under 'Receipts' are based on tilseed and its oil etc. This would, therefore, vary with other oilseeds.

4. The supply of seed for crusing for demonstration purposes, may be entrusted to any co-operative society or other institution if convenient.

5. The Indian Central Oilseeds committees would meet the entire cost not exceeding Rs.5000 for the demonstration centre. The profit made under the scheme from the sale of oil and cake would therefore, be credited to the committee. There would be no objection to the expenditure on the scheme, as adapted to local conditions exceeding Rs.5000 provided that the liabilities of the committee is limited to Rs.5000

Estimated expenditure on the Demonstration centre for one year.

True copy.

For one year.

1-DEMONSTRATION UNIT:

1.Two Wardha Ghanis at Rs.250/- each	Rs.500/-
2.One Filter Press at Rs.250/-	" 250/-
3. Two bullocks at Rs.250/- each	" 500/-
4.Construction of shed	" 400
5.Other tools and equipments	" 50/-
	Rs.1700/-

B.Working Expenses:

1.One teli at not exceeding Rs.80 p.m* for 12 months	Rs.960
2.Feeding charges of the bullocks at Rs.2/- each for 365 days	Rs.1460
3.Cost of 26 mds of tiliseed for crushing for 13 days at 1 md per ghani per day of 4 charges each at current market rates (Rs.30)	Rs. 780/-
Total	Rs.3200/-
Grant total	Rs.5000/-

C.Receipts:

1.Yield of oil from 26 mds of til seed tin in 13 days- 10.4 mds of oil the cost of which @ Rs.1/12/ per seer	Rs.728
2.Yield of oil cake from 26 mds of til seed in 13 days - 15.6 mds of cake the cost of which @ Rs.12/- per maund	Rs.187-8-0
	Rs.915-8-0
3.Profit earned in 13 days (Rs.915-8-0 - 780)	Rs.135-8-0
4.Total profit earned during year of 312 days ($\frac{312 \times 135.8}{13}$)	Rs.3244-8-0 or Rs.3245/- approximately
5.The amount to be refunded to the committee after one year on termination of the scheme	Rs.3915/- plus Rs.780/- (the initial capital outlay for oilseeds) or Total or Rs.4695/-
